

Is YOUR driveway in compliance?

Don't spend your money on **COSTLY** and **NONCOMPLIANT** concrete additions!

THE *City of Gonzales*' REGULATIONS REQUIRE:

- Any additions to driveways must be approved by the City of Gonzales by issuing a ***site plan permit***.
- No driveway can be more than **27 feet wide**.
- Additions to your driveway must be added to an ***existing*** driveway; additions cannot be separate, detached parking pads.
- Additions to your driveway cannot extend into the main portion of your front yard.
- The main portion of your front yard must remain landscaped; this is to add to the visual beauty of your neighborhood.
- You should not make an addition to your driveway if it was originally located in front of the main portion of your home.

The *City of Gonzales* will require that noncompliant driveway additions be removed by the owner.

Questions or Concerns? Stop by Gonzales City Hall or call **675-5000**. Thank you!
