This rule is commonly enforced at airports that follow security guidelines  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) OR  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK)  from authorities like the Transportation Security Administration and   +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) OR  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK)  similar international aviation security organizations. Understanding the 3-1-1 Rule for Liquids The 3-1-1 rule is a security regulation designed to limit the amount of liquids that passengers can carry in their carry-on luggage. This rule applies to items such as liquids  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) aerosols  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) gels  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) creams  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) pastes  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) and even some foods. The 3-1-1 rule was introduced in response to the global need for tighter security following several high-profile incidents. The rule is simple and consists of three components: 1. 3: 3.4 ounces (100 milliliters) is the maximum amount of

liquid each individual container can hold. 2. 1: 1 quart-sized bag is the limit for the total volume of liquids  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) and it must be a clear  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) resealable plastic bag. 3. 1: 1 bag per passenger  1888-625-3420 – Each passenger is allowed only one quart-sized bag of liquids in their carry-on luggage. The 3-1-1 rule is implemented by airlines like Alaska Airlines to ensure that liquids are transported in compliance with security regulations  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) without posing a threat to safety. The 3-1-1 Rule on Alaska Airlines When flying with Alaska Airlines  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) the airline adheres to the international 3-1-1 rule for liquids in hand luggage. Alaska Airlines  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) being a global airline that operates across various countries  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) follows security protocols that are aligned with international aviation standards  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) including the 3-1-1 rule. Key Guidelines for the 3-1-1 Rule on Alaska Airlines:

- Size Restrictions: Each liquid container you bring in your carry-on luggage must not exceed 100 ml (3.4 oz). This applies to shampoo  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) conditioner  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) toothpaste  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) cosmetics  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) mouthwash  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) liquor  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) and any other liquid items. ●

One Quart-Sized Bag: All liquid containers must be placed in a single quart-sized (about 1 liter) clear plastic resealable bag. This bag should be easily accessible when you go through security so it can be screened separately from the rest of your luggage. ● 1 Bag Per Passenger: Each passenger is allowed to bring only one resealable quart-sized bag containing liquids  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK)

gels  +1-833-817-7799 (USA) or  ++44-833-817-4675 (UK) and aerosols in their hand luggage.
